Describe the one best thing about the course or the instructor that was effective in helping you learn. If you could suggest one thing to improve the course, what would it be?

- Kristina was super helpful in teaching exam content
- Kristina was good
- N/A
- Best thing: Explaining complex ideas simply
  To improve: Nothing
- Patiently answer questions
- I think Kristina was a really great TA! The type of problems we would go over during recitation were ones we had not seen in class at all, as most of the class was conceptual. She did an amazing job explaining difficult concepts in an efficient way. She is the best TA I have ever had!
- A great instructor!
- She's exceptional in explaining course concepts by solving problem sets with us. Had to say that I was able to survive and do pretty well in the class because of the recitations.
- a great ta
- NONE
- I like that the TA uploaded detailed answers to the recitation questions to the course website in an organized manner. It may improve the recitation session to make even more detailed answers to the recitation questions.
- NA
- One best thing would be the TA is very patient with students who don't understand the questions. One improvement would be for the TA would be to go over some homework questions.
- N/A
- The recitation is sooooo helpful. no suggestion. great for everything
- You were the real teacher to be honest. Your recitations were what was on the test and homework and that is real problem not dependent on you. You did a great job. The only thing is the answer key to homework were awful and I had 0 clue what any of the stuff meant. It needs to be a proper

- She was always willing to answer any questions during class, which was helpful.
- Everything was very well organized including similar homework. The way of presenting the material made it easier to understand.

Describe the one best thing about the recitation section or the instructor that was effective in helping you learn. If you could suggest one thing to improve the section, what would it be?

- Kristina was extremely helpful in recitation
- She was good. I think you should just pre record recitation and be available for office hours during the time. I just watched the recording
- The recitation worksheets helped with understanding the homework.
- -BEST TA EVER!! I think she really did a great job of explaining the questions. Her steps and minds are so clear. Helped me a lot with learning.
- Kristina's attention to detail and explanation's of problem sets were very helpful in succeeding in this course
- Very good
- Already mention in a previous note. Kristina was the best TA I have had. I don't think she could do anything to improve.
- A great instructor!
- The fact that she actually taught the course content, and explained it well as this was important due to everything covered in the recitation was the actual course content and everything in the lecture was not useful.
- none
- She totally rocks. Best TA I have ever had in my Econ classes, clear on course concepts, great at answering questions, and very helpful handouts.
- The best thing was that the TA uploaded the detailed answers to the recitation questions on NYU Classes in an organized manner. To improve the section, I would suggest making the answers even more detailed.
- NA
- It was extremely helpful to go over the practice problems Kristina wrote to help us for the homework assignments.

Describe the one best thing about the recitation section or the instructor that was effective in helping you learn. If you could suggest one thing to improve the section, what would it be?

- the handout is very clear
- Nothing in particular.
- Highlights and annotations on the recitation worksheet while we worked through recitation problems were very helpful. The instructor's explanations are very clear and thorough. It would be nice to go a little slower, but I understand that this is not always possible.
- I really loved having recitation with this instructor and she really helped me learn! Perhaps more practice problems would have been helpful!

Describe the one best thing about the recitation section or the instructor that was effective in helping you learn. If you could suggest one thing to improve the section, what would it be?

- She was one of the best TA I have ever had. No complaints whatsoever. She explained all the materials perfectly. For me to get through the class, I give her all the credit. Thank you so much, Kristina!
- The recitation section was helpful for reviewing problems similar to the homework questions, and Kristina was very knowledgable about the material. However, because the recitation was Friday and the Problem Set is due Sunday, I was not able to start the homework earlier because I would not know how to do it until after recitation. Also, Kristina tends to come off a little unapproachable at times. I sometimes would ask questions and she would answer curtly and in a way where I felt dumb.
- Best thing was us practicing the questions - helped a lot with hw and exams
- good professor
- Kristina was an amazing TA and explained all the concepts covered in class from a wholistic and detailed angle. The fact that the recitation sections were formatted around exam-style questions was extremely useful, both in exam prep and conceptual understanding. I did notice that Kristina often sped through some conceptually heavy topics while covering their questions which would make it challenging to follow along with their explanations. Other than that her recitation sections were well organized and definitely very helpful.
- The Best TA I've had in a long time, super informative, and gave a lot of her time beyond office hours. Greatly appreciated.
- She was always ready to scheduled meetings to make sure I understood what I needed to.
- Overall good
- Kristina is always helpful
- NA
- explain problems very clearly
- Very clear instructions overall
  More homework
- Kristina is extremely helpful and patients. Her note is very clear and organized. The practice problems she goes through in the recitation really help me solidify the ideas discussed in the lecture and prepare for the exam.

Describe the one best thing about the recitation section or the instructor that was effective in helping you learn. If you could suggest one thing to improve the section, what would it be?

- Good
- She is wonderful in her office hours! However, I do feel like she's just speaking at us during recitation sections at times, and she sometimes goes too fast and erases the board a tad too quickly.
- She is good at answering question. Maybe she can just listen to the question before answering before she misunderstood the question
- give us clear instruction of how to do the homework
- TA is always helpful in explaining materials clearly.
- Detailed explanation of problem sets
- She is very helpful
- One of the best TA I ever have.
- Very nice and patient.
- Not too much
- She provides structured class notes and gives clear explanations.
- very difficult hw
- She was readily available to answer questions and did so enthusiastically.
- TA office hour for review
- Kristina is helpful and knowledgeable.
- The TA session is even more important for the exam. She taught us to solve each problem that would be on the test or homework patiently.

Describe the one best thing about the recitation section or the instructor that was effective in helping you learn. If you could suggest one thing to improve the section, what would it be?

- The TA explains the homework problems very clearly.
- She taught everyone everything, without her we would have all failed miserably
- All are good
- best thing: can simplify the course material a lot for us to understand easier.
  improve: could include more extra problems to apply knowledge.
- She taught better than the actual professor.
- Sometimes she made the solutions more complicated and harder to understand than when you went back and reviewed the homework solutions, which would confuse me.

Instructor Comments

Describe the one best thing about the recitation section or the instructor that was effective in helping you learn. If you could suggest one thing to improve the section, what would it be?

- Kristina was an amazing TA and did an incredible job of breaking down the concepts we covered very quickly in class in a way that was easily understandable and easy to follow. She was also very good about answering any questions I came to her with, even over email the night before assignments were due. Kristina is a very, very good TA and her recitations were sometimes even more helpful to me than the actual lecture.
- I think recitations should be focused more on answering questions and making sure students understand material presented in lecture rather than going over homework answers for the entirety of the class. Solutions were provided online and I didn't think it was necessary to spend time on that unless student's asked.
- she was nice and a good TA but the course material and professors teaching techniques made her job diifficult
- -Recitation instructor went over homework problems to which we already had the solutions to.
- I found the recitation leader to be lazy, and she taught her sections very quickly so understanding concepts was tough.
- She really cares about our success, and did a great job preparing us for homework assignments and exams. One of my favorite TA's
- -
- Class examples were helpful
- went through problems very thorough and very lenient on grading, a nice TA :)
- The instructor was always very easy to reach for and always answer questions either during the session or through email.
- review of assignments were clear and organized. feedback on homework/exams would be helpful
- Kristina's session helps me learn methods to solve homework assignments.
- This recitation was the most useful recitation I've ever had. It was clear Kristina actually cared about us and our learning, she helped with assignments and always tried to give us tricks and tips on how to simplify problems that seemed very complex. She always had such a positive attitude and I think I speak on behalf on everyone in saying that this recitation improved the quality of the class exponentially. She was always accessible by email and always so sweet and helpful. Considering the low quality of undergraduate economics professors in general, someone like Kristina would be put to much better use as a professor than a TA.
- The recitation for this class was my saving grace. She would try to do practice problems similar to what we would have for homework although even she could not help us completely. I know she did the best she could and was very helpful.
- She went into more detail in areas that the professor did not. She should return the homework the next week instead of 2 weeks after it was submitted. It is hard to learn when feedback comes back after that long.
- Stated everything very clearly. So polite and always willing to help
- We could spend more time on reviewing key concepts.
- Kristina was a lot better at explaining the material than Professor Flinn is. In fact, it would not be a stretch to say that I would prefer her as my professor than my actual professor.
- -
- She is the best TA I have ever had!
- She helped explain things the professor did a poor job of explaining.
- It was to my knowledge that recitations were supposed to help us understand the material, not make it harder. We would do certain problems in extreme detail essentially proving theories instead of trying to understand the economic reasoning of why the problems are necessary or how to apply them to Econ problems.
- Always available for help

Describe the one best thing about the recitation section or the instructor that was effective in helping you learn. If you could suggest one thing to improve the section, what would it be?

- Solving some exercise problems was very helpful to understand the course materials.
- Kristina was the best TA I've had at NYU. She smart, patient, nice, and honestly cares about the students. I learned 50% of the course material on my own and the other 50% from her. She is amazing and I would not have done well in the course without her.
- Good
- TA was great, accessible and truly helped the students with the material.
- Going through math problems similar to the homework was extremely helpful in understanding how to apply the material we learned in class to the homework.
- Kristina is an amazing teacher. She has such a solid understanding and is always there to help. She is one of the brightest people I've met at the economics department. More importantly she puts in a lot of effort, and the department should reward her for this!
- The TA was great!!!!!!!!!
- N/A
- Don't know what to say besides Kristina is the best... She makes the course less frustrating at least to me. She tailors the recitation notes every week to our hw assignment to make sure they are not exactly the same but help to serve as each other's compliments. Also so patient and helpful during office hours. So thankful to have her as a TA this semester:')
- Practice question
- The instructor is very helpful going though problem set questions. Plus replies email timely and clearly.
- Good recitation
- Our TA helped us make sense of the professor's lectures. She was very helpful and taught us how to solve the mathematical part of the course.
- The TA was really helpful and I was only able to learn this subject mainly from the TA. It would be better for the TA to post the answer for the practice problems we solve during the recitation on NYU classes in the future.
- The instructor teaches us how to solve problems that are similar to the problem sets and exams, which is very helpful. She also replies to emails very quickly even on weekends.
- the recitation helps organize the class material
- patiently explain how to solve problems, it's really helpful
- kind and helpful
